

Job Description- Android Developer

About Jarvis Technology & Strategy Consulting Pvt. Ltd:

Jarvis is a Political consulting firm that helps its clients to solve most pressing political and administrative problems using technology & data. We specialize in leveraging cutting-edge technology and advanced data sciences to create scalable solutions to complex problems. At Jarvis, we work in the fields of Operational Excellence, Project Management, Policy Research, Campaigns & Communications and Strategy, offering a universe of solutions to our clients which includes governmental agencies, political parties and few of India's biggest and emerging unicorns.

We're looking for self- driven Android developers to join our team to help us expand on these portfolios.

About the Role: Android Developer

Location: Delhi

Job Responsibilities:

- Design and build advanced applications for the Android platform
- Collaborate with cross-functional teams to define, design, and ship new features
- Work with outside data sources and APIs
- Unit-test code for robustness, including edge cases, usability, and general reliability
- Work on bug fixing and improving application performance
- Continuously discover, evaluate, and implement new technologies to maximize development efficiency

Requirements and Qualifications:

- 2-5 years' experience in Android development preferably with a consumer facing mobile application
- Experience with both Java and Kotlin
- Experience with MVVM, Dagger and Clean Architecture.
- Experience with integrating 3rd party APIs, SDKs and web services
- Prior experience with Transcription, Natural Language Processing and Machine Learning a plus.
